

Physical Education & You

GREENVALE

March 2016

Welcome back to Physical Education and You

March is here. Spring is not far away.

March Madness is everywhere.

With that in mind, we will be starting our basketball unit immediately following our Dance, Dance Revolution unit.

Students will be taught and practice various types of passes used in basketball. Dribbling and shooting skills will also be taught and practiced. The students will play a variety of games that will reinforce the skills they have been practicing.

Please check back here each month for updates concerning our Physical Education Program.
